PERSONAL SUMMARY

I am a recent Web Dev graduate looking to start a technology based career. A fast and agile learner, I am constantly working to improve my development skills. I am team focused, will bring an excellent attitude, dedication and loyalty, along with logical and creative problem solving skills.

TECHNICAL KNOWLEDGE

Languages	Frameworks/Libraries	Other Knowledge
HTML	Templating - HandleBars, Pug	Github & Gitflow
CSS	React, React Native, Redux	Heroku Deployment
JavaScript - ES6	Node.js, NPM, Express.js	Testing - Unit & Integration
PHP	RESTful Routes/APIs	Terminal/Command Line
Python	Bundling - Webpack, Browserify	Code Refactoring
Databasing - SQLite, PostgreSQL	jQuery	Debugging
	Bootstrap	Xcode

TRAINING AND DEVELOPMENT

Graduate, Enspiral Dev Academy (EDA), Wellington —

May 2016 - September 2016

An 18 week web development bootcamp, focused around JavaScript and other auxiliary technologies. Along with strong technical skills, one of EDA's biggest goals is to foster a deep culture of open communication, open source ideas, improved self learning and team orientated project development.

During my time here I completed 1000 hours of practical, individual and team learning in JavaScript based Web Development. This included:

- Highly curated tutorials and regular group discussions.

- Five minute “lightening talks”, working up to creating and delivering our own 30 minute lecture.
- A three week individual project.
- A team project each week where we had to design and build a minimum viable product for our clients.
- A final seven day group project presented to industry employers.

CAREER HISTORY

Property Maintenance for Residential Property Developer — April 2016 - Current

While studying web development I have been working part time doing property maintenance.

Draughtsperson, Stresscrete, Otaki — Feb 2016 - April 2016

Nationwide precast and prestressed concrete manufacturer.

Key Responsibilities

- Creating technical production drawings with AutoCAD from engineering and architectural plans.
- Liaising with clients about work schedules, job variations and scope.
- Peer reviewing other team members drawings to ensure they were correct and to best practice.

Projects

- Mackays to Peka Peka Expressway
- Ryman Healthcare Waikanae Retirement Village
- New Wellington Airport Parking Building

Reason for leaving - To pursue career in web development.

Precast Technician and Quality Assurance, Quality Precast Concepts, Christchurch — 2014 - 2016

Christchurch based precast and prestressed concrete manufacturer.

Key Responsibilities

- Overseeing production so all products met strict quality regulations.
- Producing quotes to accurately assess costs and win jobs.
- Capture and analysis of production data to improve procedures and efficiency.
- Liaising with clients, engineers, site contacts and suppliers.
- Development of companywide production procedures.

- Creating technical production drawings in AutoCAD.
- Organising product loading, transport and logistics.
- Monthly health and safety audits and recommendations to reduce site injuries.

Projects

- Stormwater 360
- Christchurch Hospital
- Christchurch Arts Centre

Achievements

- Supervision of 12 full time staff and regular contractors to ensure schedules were achieved and quality of product was high.
- Developed processes and systems to ensure business was able to meet demand as we grew from a startup to key player in Christchurch rebuild.
- Managed Stormwater360 project which enabled us to reach new markets within NZ.

EDUCATION

Christchurch Polytechnic Institute of Technology, Christchurch — 2015

Bachelor of Engineering Technology, Civil & Water

As I had secured a job in the industry I returned to study part time where the most practical way to do this was through CPIT.

University of Canterbury, Christchurch — 2012 - 2013

Bachelor of Engineering (BEng Hons), Civil & Natural Resources

- Annual Bridge Building Competition - Member of Top 3 Team

After completing 2 years I left to work full time for a year and gain industry experience.

Aotea College, Porirua — 2008 - 2011

- NCEA Levels 1, 2 & 3 - Merit Endorsements
- Recipient of Rotary Scholarship to NZ Science and Technology Forum 2011
- 1st XI 2008 - 2011 - Opening Batsman
- Boys 1st Division Basketball Team

INTERESTS AND HOBBIES

I have many interests. I am a passionate learner, random fact memoriser, puzzle solver, part-time gamer, Netflix subscriber, basketball player, cricket watcher, gym goer, spontaneous but terrible musician, exquisite food lover, sunshine soaker.
