Personal Portfolio - <http://cam-shotter.herokuapp.com/>

## PERSONAL SUMMARY

I pride myself on my commitment, professionalism, attention to detail, creativity and problem solving abilities. I am enthusiastic and dedicated, and have an open personality. I am an agile learner who is constantly working to further improve my skills and knowledge of software development. I will bring a fresh and practical perspective, and work well in teams or individually.

I am at the beginning of my technology career and am eager to learn and grow. So I am looking for a workplace with a great culture, that will give me opportunities to enhance my knowledge and foster on-going learning.

I have studied both engineering and web development. Through these I have developed my critical thinking and problem solving skills, and have learnt the value of designing easy-to-understand processes and creative solutions to support customers and the business. Since finishing my web development course at Dev Academy I have been self-learning new technologies, and am continuing to expand and develop my skill set.

## SKILLS

### TECHNICAL SKILLS

Front-End	Back-End	Other
HTML	Databases (SQLite)	Github & Gitflow
CSS (Pure, Bootstrap)	Knex.js	Deployment (Heroku)
JavaScript (Functional, jQuery)	Async/Promises	Unit Testing (Tape, Mocha etc)
ES6	Node/NPM	Integration Testing (Chimp)
Templating (HandleBars)	RESTful Routes/APIs	Code Refactoring
React/React Native	Authentication (BCrypt, Passport)	Debugging
Redux	Express.js	Xcode

I was responsible for: ensuring all production met strict quality regulations; logging data records of our products and implementing tests to accurately quantify this data; developing companywide production procedures; producing job estimates and quotes for clients; production supervision of 8-12 staff and contractors; liaising with engineers, site contacts and suppliers; and producing 2D and 3D AutoCAD technical drawings.

## **EDUCATION**

**Enspiral Dev Academy, Wellington — May - September 2016**

**CPIT, Christchurch — 2015**

Bachelor of Engineering Technology, Civil & Water

This was part-time study while working at Quality Precast Concepts

**University of Canterbury, Christchurch — 2011 - 2013**

Bachelor of Engineering (BEng Hons), Civil & Natural Resources

## **ACHIEVEMENTS**

- Awarded a scholarship to attend the Rotary Science and Technology Forum
- Opening batsman Aotea College 1st XI 2008 - 2011
- Member of Aotea College boys 1st division basketball team
- First responder to major bus crash in Arthurs Pass last New Years Eve, helped organise rescue operations and coordinate crowds

## **INTERESTS**

I have many interests. I am a passionate learner, random fact memoriser, puzzle solver, part-time gamer, Netflix subscriber, basketball player, cricket watcher, sporadic gym goer, spontaneous but terrible musician, exquisite food lover and sunshine soaker.
